Summary

B.Tech Information Technology student with a strong interest in Software Engineering, Cloud Computing and AI-powered Automation. Experienced in building automation workflows using n8n, developing web applications, and solving Data Structures & Algorithms problems in Java. Passionate about building scalable software, learning modern cloud technologies, and contributing to real-world engineering projects.

Skills

AI / ML & Data: Prompt Engineering (ChatGPT, Claude, Gemini)

Programming & Querying: Python, C++, C, Java, JavaScript, SQL

Frameworks & Technologies: MySQL, Unity

Automation: n8n, Gemini API, Google Sheets API, Google Drive API, YouTube Data API

Core CS Concepts: DSA, OOP, DBMS, OS, Computer Networks

Clouds: AWS (IAM, EC2, S3, VPC, CloudWatch)

Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA, AI tools(ChatGPT, Claude, Gemini) & Agentic AI(Antigravity, Cursor, Codex, Claude Code), Linux, Adobe Illustrator, Photoshop, Canva, Blender, Wireshark

Experience

Self-Driven AI Automation Learning

Nov 2024 – Present

AI Tools

- Hands-on experience working with AI tools like ChatGPT, Claude, and Google Gemini for problem-solving, automation, and content generation.
- Practiced prompt engineering to generate accurate, optimized, and context-aware outputs.

Coordinator – Student Developer Club, REC Banda

Aug 2025 – Present

REC Banda

- Coordinating technical workshops and coding sessions for undergraduate students.

Projects

AI Powered YouTube Automation | n8n — Gemini API — YouTube Data API — Google Sheets API — Telegram API

- Built end-to-end YouTube automation workflow using n8n.
- Integrated Gemini API, YouTube Data API, Google Sheets API and Telegram API to automate content publishing.
- Automated title generation, description generation, tag generation and upload notifications, reducing manual effort.
- Automated thumbnail generation using AI to streamline the content publishing workflow.

Portfolio | React — TypeScript — Tailwind CSS — Vite — Vercel

- Developed a responsive personal portfolio showcasing projects, technical skills and achievements.
- Designed a modern UI using React, TypeScript and Tailwind CSS with a mobile-first approach.
- Deployed the portfolio on Vercel with GitHub integration for automatic deployments.
- Integrated live GitHub and LeetCode statistics to showcase real-time developer activity.

Awards & Certifications

- AWS Cloud Practitioner Self-Paced Program (GeeksforGeeks)
- Soft Skills Course Online – Complete Professional Development Training (GeeksforGeeks)
- Google Cloud Arcade Skill Badges
- Represented REC Banda at India International Science Festival (IISF) 2025
- Solved 70+ problems on LeetCode & 100+ Problems on GFG (DSA in JAVA)
- Volunteer Certificate in HACKFEST 2.0 REC BANDA)
- Volunteer Certificate IPR Workshop - Sponsored by CSTUP)
- Volunteer Certificate in AVATAR'26 (REC BANDA)
